Automatic Payment Plan

Your monthly electric bill can be automatically charged to your credit card or drafted from your bank account free of charge.

You may choose to have your monthly electric bill charged to your credit card (**VISA or MasterCard only**) or drafted from your checking or savings account each month. This is a **free** service offered to all members as a convenient way to pay your bill.

How does Recurring Credit Card Charge work?

- **You must visit our website www.winenergyremc.com to set up your credit or debit card to be charged automatically each month.**
- You will receive a bill each month that states, *'Do Not Pay-Credit Card is Being Charged for the Amount Owed'*.
- Your credit card will be charged and your WIN Energy account will be credited on the due date of the bill.
- **Enrollment in the recurring credit card program is effective through the expiration date shown on your credit card.** It is your responsibility to update the expiration date or any changes to your credit card. If your card expires, automatic payment will be declined by your credit card company and your electric account will remain unpaid.
- If a credit card is declined for any reason a fee will be charged to your WIN Energy account. A second decline will result in removal from APP and a deposit may be charged.
